

Muskoka

Commercial / Industrial
Residential / Agricultural

The Muskoka panel is 30% wider than traditional rib panels, no other panel comes close. A distinctive continuous look that is virtually seamless. Designed to meet the harshest weather and load conditions while providing long-term building performance. The Muskoka panel is a natural choice for large agricultural and light industrial applications. This panel has a 3/4" high rib at 10 7/8" centres running vertically. For new construction the panel can be installed directly onto 1/2" plywood or over 1"x 4" horizontal strapping.

Steel Tile manufactures a solid line of roofing tiles and accessories that are durable, stylish, cost-efficient and virtually leak-proof.

Home and cottage owners, institutions, builders and architects have all discovered the long-lasting Steel Tile advantage.
