

Every Steel Tile panel including accessories trims and flashings are available in 15 standard colours plus 3 specialty finishes to achieve your design vision. The advanced DuraFlex technology is formulated with a proprietary durable resin which provides superior resistance to chalking and fading, especially in extreme heat and UV exposure locations. DuraFlex paint's exceptional coating hardness, flex ratio and abrasion resistance has been proven to out-perform other finishes in the harshest of climates. DuraFlex paint provides a new level of Long Term Exterior performance for building product applications with the best warranty in the business.
