The Affordable Metal Roofing Solution.

Katola

Steel Tile's **Katola** panel is the most cost-effective metal tile roofing system on the market. Combining all the features of our famous full-length profile sheets but in an easy to handle size, making them ideal for any Do-It-Yourself handyman. Designed with overlapping and water shedding capabilities, these deep profiled 26 gauge metal sheets will dramatically transform any home, cottage or small roofing project. Laying down like ordinary roofing shingles the **Katola** panel is easier to handle, transport and install, saving you time and money. Perfect for high-pitched roofs and other difficult-to-reach jobs. The **Katola** panel is so durable it can withstand Florida hurricanes and meets all Florida Building Code & Dade County approvals.

EASY INSTALLATION Simple to install. NO costly strapping required and NO need to strip off old shingles. On new homes, it can be installed without expensive sheathing, subject to building codes. Comes with a detailed instruction and installation booklet.

EVERYTHING YOU NEED Steel Tile stocks all the accessories, from vents to ridge caps, trims, fasteners and flashings. Everything required for a complete metal-roofing solution.

VIBRANT COLOURS The **Katola** panel is available in a variety of solid colours to suit all applications and tastes. We use only the best paint finishes in the industry. Our high-quality paint finishes are specially designed to resist fading in extreme climates with high UV exposure.

EASY TO MANAGE **Katola** panels are light weight and easy to handle. 1/3 the weight of ordinary shingles and comes on a compact skid package.

EXTREME WEATHER CONDITIONS Blistering heat, destructive winds, freezing cold – Steel Tile is proven to perform well in all weather conditions. Providing outstanding durability and leak protection, our metal-roofing systems can withstand Florida hurricanes.

SNOW AND ICE BUILDUP Steel Tile's no-grip surface, combined with the Snowlok® snow control system, proper insulation and roof ventilation alleviates snow and ice buildup even in the harshest Canadian winters.

Each panel covers 4.93 sq. ft., includes overlap.

Sold as single sheets or on compact skids. Buy only what you need.
